

Igor Marracho Carriço Cesar

Team Lead &
Senior Front End Engineer

About me

I'm a software engineer from Rio de Janeiro, Brazil, living in Porto, Portugal. I'm a full-stack developer focused on frontend, passionate about cutting-edge, pixel-perfect, beautiful interfaces and intuitively implemented UX. I've built products for companies and businesses around the globe, ranging from marketplace websites to complex solutions and enterprise apps, with a focus on fast and elegant user experiences.

Experience

Team Lead & Senior Front End Engineer

Mirailabs (Pegaxy)

May 2022 - Present

I am the Lead of Pegaxy R&D Front End Team, we are responsible for creating and maintaining projects related to the Pegaxy Game.

- **Relevant Technologies / Skills**

Node.js | React | Design System | Zustand | AWS | Docker | Webpack | Jest | CICD | Jira | Gatsby.js

Full Stack Developer

Significa

June 2021 - May 2022

I was a member of the Frontend/Design core team. Significa is a Design-led company, so most of my work had close relations with design work. After working at Significa, even though I am not a designer, I can safely say that I have an eye for detail and care about good design. Besides that, I built beautiful projects for worldwide clients and helped guide less experienced team members whenever possible.

- **Relevant Technologies / Skills**

Node.js | React | React Native | Design System | Redux | AWS | Webpack | Jest | CICD | Jira | Next.js

Full Stack Developer

OLX Brasil

September 2019 - June 2021

I was a member of the Online Sales & Promotions team, which is responsible for all the points of sales of OLX, and selling the paid products for the final customer.

- **Relevant Technologies / Skills**

Node.js | React | React Native | Design System | Redux | AWS | Docker | Webpack | Jest | CICD | Jira

Full Stack Developer

Stone Pagamentos

April 2019 - September 2019

I was a member of the Sistemas RC Team, which is responsible for most of the organization's customer service tools. I worked with Node.js, Python, React.js, core Javascript and SQL.

- **Relevant Technologies / Skills**

Node.js | React | Vue.js | Puppeteer | Redux | Webpack | SQL | Azure

Software Developer Internship

IBM

December 2017 - April 2019

As a member of the Process Efficiency Team from IBM Global Financing in Rio de Janeiro, I was in charge of developing tools to save time and money to improve the processes of the IBM Bank(IGF).

- **Relevant Technologies / Skills**

Python | Java | Node.js | Vue.js | Puppeteer | Electron | SQL | IBM Cloud Solutions

Projects

Axie Legend

React, Next.js, Typescript

Axie Legend is an advanced Axie search engine designed to help Axie Infinity players find the best Axies on the market.

react-express-mongo-boilerplate

Mongo, Express, React, Apollo GraphQL, Node

★ MER(A)N is a FullStack opinionated monorepo webapp boilerplate based on the MERN stack with Apollo GraphQL.
